## Housing subsidy payment plan gets HUD treatment--confusion

Another alleged federal goldmine has turned to iron pyrite in Randall County.

Randall County and City of Amarillo officials have learned that what they thought the federal Department of Housing and Urban Development (HUD) was saying was not what HUD was saying at all.

This time, HUD pulled the rug from under the county on what local officials understood would be a \$109,000 bonanza for rent and home-payment subsidies for lower income families—students and the elderly primarily.

When HUD told County Judge Woody Pond in a letter a week ago that Randall County would be eligible to receive \$109,000 in federal funding for the subsidy program, the judge began contemplating how to work into the program.

Apparently, Potter County officials, believing the HUD letter which said that county would receive about \$205,000 for the same purpose, did the same.

But, Leon Boone, community development director for the City of Amarillo, checked out the information with the HUD regional office in Dallas and found that HUD had once again altered its

stand.

In a letter to Pond, HUD said Amarillo was to receive \$290,000 for the home-subsidy program. The item was listed as a separate allocation.

But, Boone talked with HUD officials and discovered that Amarillo's \$290,000 allocation is to come out of the allocations made separately for Potter and Randall counties.

That leaves both counties with a potential allocation ceiling of about \$24,000. And, that fact leaves Canyon with even less.

Local officials have had similar dealings with HUD in the past year, after the federal agency announced last fall that the City of Canyon would be eligible to receive federal funds totalling \$760,000 over the next six years for community development.

Plans were hurriedly put together by the city manager's office for allocation of the first year's funding, a public hearing was held, and the plans were finally okayed by city commissioners, allocating the bulk of an estimated first-year allocation of \$31,000 to paving of streets in the west portion of the city.

Then, the city manager learned that HUD had made a mathematical mistake and Canyon and other cities like it would

receive no funding at all.

Now, Congress is considering a bill which would correct HUD's mistake upon passage.

The chances of the City of Canyon being able to use that portion of the \$24,000 which they might receive from Potter and Randall counties are slimmer thanks to a HUD ruling that funds for the first year of the program can be used to subsidize families living in existing housing.

Chamber of Commerce officials and local builders say existing rent housing is virtually unavailable here.

Further stipulations by HUD on the use of the funds might also put Canyon out of the running for actual use of the money.

Boone said the rent subsidy payments are based on a family's income, family number, and a formula which is figured on the average rent which families should be paying for housing. For a two-bedroom home, for example, HUD says rental charges should be about \$106 per month, which might or might not be a competitive rental charge when compared to the rents charged on Canyon.

Based on the HUD formula, Boone said, Canyon, if able to

receive the full \$24,000 allocation meant for Potter and Randall counties, might be financed to subsidize the rents for about 20 families.

Boone says there are three ways the full program can be administered. Either Potter County can apply for full funding at the \$205,000 rate while Randall County applies for its \$109,000 and

both could work separately to administer the \$290,000 which is destined for the City of Amarillo, or the City of Amarillo could administer the entire package, with Potter and Randall county officials deciding how the \$24,000 remaining funds will be allocated

within their counties outside the Amarillo city limits.

Boone admits he's pushing for the latter approach with the city of Amarillo administering the program.

Amarillo city officials have already sent to HUD a letter requesting formal application blanks for funding and Boone said he will try to get Potter and Randall County officials together with representatives from the city to decide how the proposal will be handled.

## County tax hike looms as possible

The sunflowers are up and brightening up dirt road right-of-ways throughout the county. They have also been sown as a cash crop for the first time this year by Randall County

farmers. News photographer Beelee Goodwin took the above double exposure picture.

A tax increase to finance county government here in 1976 appeared imminent Monday after Randall County commissioners reviewed projected tax income figures.

"That won't even cover inflation," Commissioner John Fulgenzi commented after Mrs. Audrey Bruse, tax collector, said the county could count on an increase in tax revenues for 1976 of only about \$15,000.

An apparent slow-down in growth within the county contributes directly to the less-than-anticipated income increase for next year's operations, according to Mrs. Bruse's figures.

Commissioners put off until Monday a final decision on the actual tax rate for next year, after instructing County Auditor Betty Hodges to spend this week preparing fairly accurate 1976 expenditure figures for comparison with the income figures provided by Mrs. Bruse.

But, they did go ahead and jump the tax ratio from 17 per cent to 25 per cent during formal action Monday afternoon. The ratio itself is meaningless without the tax rate figure which commissioners are expected to provide next week. The jump in ratio means that county property will be taxed on 25 per cent of the 100 per cent fair market value in most cases.

Mrs. Bruse reported to commissioners that Randall County experienced real property growth amounting to about \$15 million during 1975. Personal property growth amounted to about \$5 million, according to her figures.

The total \$20 million growth figure was down by about \$10 million from the previous year.

Mrs. Bruse also reported that allowing the \$3000 exemption for persons 65 years of age and over on real property taxes would take about \$18 million from that \$20 million total, leaving a net growth figure of about \$1.4 million.

The taxes on that \$1.4 million would bring an additional approximately \$15,000 into the county treasury next year, she said.

"I can't give you the estimated expenditures," Mrs. Hodges told commissioners, "but I don't feel like this will take care of the operating expenses."

"I doubt that it will either," Fulgenzi said.

Mrs. Hodges said most offices are figuring an additional percentage figure on their 1975 budgets to take care of increased operating and personnel costs during 1976. In some offices, she said, budgets reflect as much as a 20 per cent increase for 1976 over 1975.

While Fulgenzi pointed out that the \$15,000 in additional tax revenue would not even cover the inflationary factor in doing

business, Commissioner Dee Griffin noted dismally that a new state law requiring changes in the county's voter registration system would itself require an additional \$26,000 in funding.

Commissioners voted to set the tax ratio at 25 per cent because Griffin argued that it appears more than likely the state will in the future require all counties to use a uniform 25 per cent ratio to figure taxes.

Currently, the county tax is figured on \$1.05 per \$100 valuation on 17 per cent of the

100 per cent market value. That figuring system, however, is applied only to industries, businesses and personal property. Residential property is taxed at \$1.05 per \$100 valuation on 17 per cent of 60 per cent of the 100 per cent market value.

Commissioners upped the latter rate last summer for 1975 to figure residential taxes. The system has been said to be illegal.

In other business Monday, Fulgenzi urged his fellow commissioners to open com-

munication with City of Amarillo commissioners and Potter County commissioners on the construction of a new joint jail facility.

With increasing pressure from state and federal agencies to upgrade jail facilities, Fulgenzi argued that it might be to the advantage of Randall County taxpayers to at least talk with the two other entities about joining in the joint jail project.

Other commissioners were not enthusiastic in their response to (See LEGAL, Page 5)

## Annex pay-off could lead to higher taxes, also

An already dismal fiscal picture for 1976 county finances could turn even more dismal as county commissioners begin pondering how they will raise money to pay off about \$600,000 in bonds for the construction of their new South Amarillo courthouse annex.

If commissioners keep hands off the federal revenue sharing funds due the county over the next year, they might be able to reduce the bonded indebtedness by about \$200,000.

Financial Advisor Bob Davis told The News Monday it appears that initially, at least, the county will have to issue bonds totalling right at \$600,000

to pay off the certificates of obligation already issued for construction of the new building.

And, that issue, he indicated, will probably require a tax increase, given the status of the county's fiscal picture as outlined Monday in commissioners court.

While the court has received about \$336,000 in federal revenue sharing funds, funds they originally earmarked for the construction project, the revenue sharing fund account has been depleted and today contains only about \$96,000.

To that total will be added about \$100,000 over the next year. Thus, about \$290,000 might

be available to pay on the principal of the bonds.

However, Davis noted Monday that it may take about \$60,000 to pay architect, attorney and financial advisory fees and to furnish the new building.

In view of the financial report given Monday to commissioners by Mrs. Audrey Bruse, tax collector, Davis said it is entirely possible that taxes will have to rise to pay for the interest and principal on the bonds issued to cover the cost of the new complex in South Amarillo.

When initial planning began on the annex last summer, commissioners indicated they would (See ANNEX, Page 7)

## Now fine arts facility must be approved by state-wide board

When West Texas State University officials began planning ultimate construction of a new fine arts building two years ago, their only worry was money.

Now, with money assured, they have only one more hurdle to overcome before actual construction of the long-awaited structure can begin.

And, they're not speculating on how easy the final hurdle will be to jump.

Under a new Texas law passed during the most recent session of the state legislature, the Coordinating Board, Texas College and University System, is given the final word on construction of new buildings on all college campuses in the state.

When WTSU regents gave final approval to completed drawings for the new buildings and okayed the advertisement for bids for a contractor for the job in early June, they had not yet assessed the impact of the new bill on the project they were involved in.

Now, Financial Vice President Hermas Miller is certain that even though planning and funding for the FAB began long before the new law was passed, ultimate approval of the project rests in the Coordinating Board.

He's even more sure of the fact after Sunday when three members of the board visited the campus to inspect the old fine arts building, which officials at the university say they've outgrown, and to review the plans for the new structure.

Wayne Thomas of Hereford, Dick Slocum of Galena Park and Marshall Formby of Plainview toured the old FAB facility Sunday

with Miller.

"I have no indication of their reaction," Miller said. "They seemed more impressed with our needs when they left than they were when they got here. But, there were no comments one way or the other."

Miller said WTSU officials will go to Austin July 17 to meet with a Coordinating Board subcommittee concerned with new structures to present the formal university case for construction of the new FAB.

Then, on the 18th, the entire Coordinating Board will consider the university's project.

"Under the new statute they have the authority to approve and disapprove all building projects," Miller said.

Miller said the FAB might have escaped board scrutiny had a formal contract for the construction already been in effect when the new law was passed.

Should the Coordinating Board give final approval to the project, the university is prepared to spend an estimated \$4.2 million for the construction of the new building.

Bids are to be opened this fall.

While on campus last weekend, the three board members also viewed the damage caused the old administration building by a basement fire two weeks ago. Miller said the board must approve the project before remodeling or reconstruction can begin.

The university has asked Gov. Dolph Briscoe to allocate about \$400,000 in emergency funds for remodeling of the building, including the addition of fire safety equipment.

Tentative park plan agreed on

## Park group will ask city for funding

Members of an ad hoc committee studying the possible construction of new park facilities here will meet July 21 with Canyon city commissioners to seek a formal commitment of funds and support for a new park.

The committee tentatively began work on a park plan outlined by Chairman Phil Langen, a plan which would link Conner Park, the only existing city recreation facility, with about 12 acres of land just south of Canyon High School.

The committee also indicated they will seek federal funds for the project sometime this fall.

School Supt. Jerry Jacobs

formally committed the district to provide \$10,000 cash and a portion of the school property behind the high school and east of the school bus barn for a new park program.

Several members of the committee expressed doubt that the city commission will commit any funding for park expansion.

Langen presented a plat proposal outlining his idea of a new park arrangement. The plat included the portion of land south of the high school, a strip of land now owned by Aubrey Crossland to the south of the Hidden Valley addition and following Tierra Blanca Creek to abutt Conner Park.

Langen's plan included six tennis courts, parking spaces, three baseball diamonds, restrooms, bike and hiking trails and new picnic tables.

"The Chamber (of Commerce) really believes the parks and recreation area is a city responsibility and somehow we hope to get some commitment soon from them on their feeling," Langen told City Clerk Tom Plumlee, a committee member. "If we go through another study program with no funds we're wasting our time."

Langen said the city should make some commitment based on the plan the committee adopts.

Jacobs said the school district realizes the need for new tennis courts in the city and feels that commitments of funding or aid for new parks should come from the city, school district and county.

"As starters, the school will commit a place to build tennis courts or other projects and \$10,000," he said.

Plumlee said it might be difficult for the city to come up with a firm commitment by a proposed deadline for completion of the planning stages on the parks project of Sept. 1.

Langen outlined completely his project and said it might be possible to ask the city to com-

mit itself to pay for about \$75,000 in the project, while also seeking federally matching funds totalling around \$160,000.

Elton Cox, tennis enthusiast and city attorney, said a \$300,000 park project would be difficult to finance.

"The city won't give you anything, much less \$75,000," Cox said.

Langen said the committee should shoot for a project completion deadline of around Sept. 1 so application could be made to the Texas Parks and Wildlife Commission for matching federal funds.

But, Plumlee said it might not (See PARKS, Page 7)

# University Phone Service Being Repaired

West Texas State University will have its telephone service restored "probably by the end of the week," says Southwestern Bell supervising wire chief Dick Storch, as a 40-man crew labors around-the-clock to re-install

WT's 2200 stations. Already a majority of the University's administrative office lines are operative on their old numbers, with all of the 66 outgoing trunks and one-half of the 86 incoming trunks working.

Southwestern Bell Telephone Company and Western Electric Company workmen who were called to Canyon from cities throughout Texas have compressed a normal 33 weeks of work into three.

"We do appreciate the hard work of the telephone company," says WTSU Vice-President for Financial Affairs Hernan Miller. "We can be glad that we do have the service of Southwestern Bell. Even though they sustained a huge loss on this fire, West Texas State is not responsible for any damage to the telephone equipment."

The original system was a total loss in an early morning June 23 fire which gutted a portion of the Old Administration Building on the WTSU campus where the telephone equipment was housed. The blaze started in another room and swept into the telephone equipment location.

The restoration project has been a priority item for Southwestern Bell and Western Electric, which is the manufacturing and supply arm of the Bell System.

The original installation of the campus Centrex system, which provides direct dialing of any number on campus, required 18 months including engineering, cable replacement, equipment delivery time and installation.

The current restoration normally would have required 12 weeks for manufacture and delivery of equipment from Western Electric, another 18 weeks for installation and three to four weeks for testing.

All that has been compressed into 21 days or less through the unified operation of the Bell System.

Equipment coming off the manufacturing line and destined for other locations through the nation was diverted to the

emergency West Texas State job. The first of that replacement equipment arrived on campus two days after the fire.

Until the new system is operative, Southwestern Bell has provided temporary telephone service for administrative use through a smaller PBX which was in service on June 24, providing 60 extensions to various WT offices.

In addition, Southwestern Bell installed about 30 coin telephones at various locations around campus.

Within hours after the fire on June 23, the company had spliced cable to provide six temporary phones to campus officials.

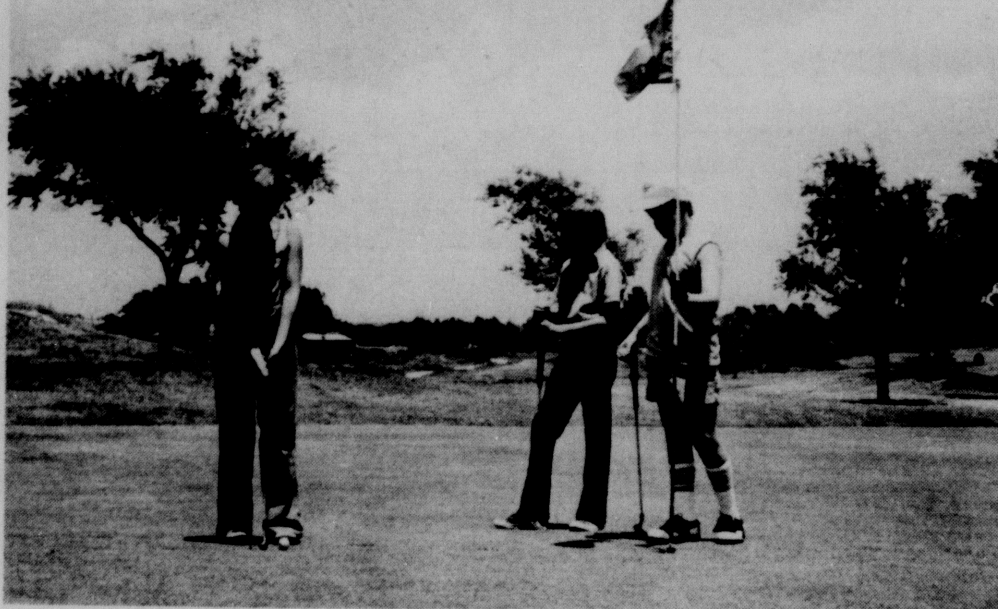

## Teams Tied For Top Spot

Canyon Little League play ended last week with two major league team tying for first place. The A's and the Cardinals were the top two teams with identical records. First place designation went to the A's because of more wins chalked up against the Cardinals.

An All-Star team has been selected to represent Canyon in the upcoming area Little League Tournament to be held in Dumas Monday.

Wayne Williams, coach of the A's will be the All-Star manager and Gene Carlisle, coach of the Cardinals will head the team. Made up of Tim Hair, Louis Byers, Joe Doss, John Carlisle, Britt Bostick, Mike Bell, John Fortenberry, Greg White, Mark Burkett, K. David Johns, David Harkin, Scott Robinson, Danny Riley and Tom Nix. The alternates are Trey Kent and Curt Johnson.

In the first tournament game, the Canyon All-Stars will meet the All-Star team from Dimmitt.

The Hunsley Hills Junior Golf Association is now being formed for boys and girls ten years old through high school age. Above, l-r, Steve Brown, Brad Phillips and Blair Garner are shown on the links. Anyone interested in joining the new golf association should contact the Hunsley Hills Pro Shop.

## Colorado Basketball Star Signs Here

Scott Wilson, one of the top Class A players in Colorado history, is the sixth high school basketball star to announce plans to attend West Texas State University.

Wilson, a 6-5 forward from Westcliffe, Colorado's Custer County High, joins two other prep players and three junior college stars as future Buffaloes. Also announced as members of the 1975-76 WTSU basketball team are guard Mike McBride from Wichita, Kansas, Larry Cunningham from St. Louis, Bakersfield, Calif., guard Milt Henderson, forward Melvin Jones from Memphis, Tenn., and Brad Schreck, a forward from Wichita.

A two-time prep all-American, Wilson scored 2,124 points and pulled down 1,447 rebounds, averages of almost 30 points and 20 rebounds per game. As a senior, he averaged 35.5 points and 23.5 rebounds per game while shooting 58 per cent from the field and 78 per cent from the line.

His honors in high school were almost limitless. Wilson was named the Colorado Class A player of the year three times, as well as earning all-state, all-Southwest, and all-conference honors from his sophomore year on.

Last year, Coach Ralph Hey's

Custer County team won its fourth straight league title with a 23-1 mark. During Wilson's four varsity years, Custer County had an 83-13 record.

Wilson once scored 54 points and grabbed 29 rebounds in one regular season game, and in the 1975 state tournament he scored 50 points and had 20 rebounds in one contest.

An honor student, Wilson's parents are Mr. and Mrs. Dick Wilson of Westcliffe.

## Two Teachers Outstanding

Two Canyon school teachers have been named Outstanding Educators of America.

They are Charlotte R. Brantley, art teacher at Canyon High, and Jane Ann Westberry, an English teacher.

With their selection for appearance in an annual biography, the two also become competitors for five national awards with each national winner receiving a \$500 unres-

tricted grant and award certificate.

Mrs. Brantley has taught 18 years, 14 of them in the Canyon district. She received her bachelors degree from Southwest Texas State University and her masters degree from West Texas State University.

Mrs. Westberry has taught in Canyon six years and has 12 years of teaching experience. She received both bachelors and masters degrees from WTSU.

Demmerle, Southern California's Pat Haden, and Tulsa's Mack Lancaster.

"The program is over 10 years old, and Ben is our first winner," Dr. Bullock added.

## Teacher Training Workshop On WT Campus Next Week

Sponsored by the West Texas State University Department of School Services, Conservation Education Workshop will be held July 14 through 30.

Designed to fill organized in-service teacher education requirements, the teacher training workshop will meet from 9:10 a.m. to 12:20 p.m. daily. John Muthersbough, assistant professor of geography is director for the workshop.

Goals of the environmental conservation course, for the teacher, according to Muthersbough, include learning conservation concepts, identifying resource problems, meeting resource conservation specialists, developing environmental and resource bibliographies, exchanging teaching materials and ideas and observing conservation concepts in the field.

Consultants speaking at the workshop will include Joe Hucklestein, Texas Education Agency, Austin, speaking on out-

door learning experiences for elementary teachers and Earl Grabhorn, educational specialist for the Oil Information Committee, Dallas. A representative from the Texas Water Development Board of Austin will also attend.

In addition to off-campus consultants, films, slides, models and an all-day field trip July 30 will be used. New curriculum guides issued last year by the TEA will also be studied. Entitled "Strategies for Implementing Environmental Education" and "Planning and Implementing School Sites for an Effective Outdoor Education Program," the guides were issued for elementary, junior high and senior high level teachers.

The graduate-level workshop is designed to give teachers time to study the new materials, Muthersbough said. Another goal is that students may become more aware of environmental issues.

Registration for the three-hour course will be July 14, in conjunction with registration for the second summer school session in the Student Activities Center.

Costs for the workshop only are tuition and fees, \$46.95 for in-state and \$141.95 for out-of-state participants. Transportation costs for the field trip are \$5.

Tuition scholarships will be offered through many County Soil and Water Conservation Districts of the Panhandle. Further information may be obtained from the nearest Soil and Water Conservation District Office.

Further information on the workshop may be obtained from John Muthersbough, P. O. Box 743, WT Station, Canyon, Texas 79016.

**39th Birthday Is Celebrated**  
The "39th" was celebrated by J.G. "Whitey" Voelm Sunday, July 6, at a surprise birthday party held in his honor which featured a barbecue supper with homemade ice cream and birthday cake for dessert.

It is the family's tradition to place the amount of money equal to the celebrant's years in a layer under the icing of the birthday cake which was this year shared with Mike Voelm of Pensacola Naval Air Station, Mr. and Mrs. Buddy Free of Earth; Mr. and Mrs. Billy Sifford of Friona; Mr. and Mrs. L.H. Bromert, Mr. and Mrs. W.J. Gentry, Mrs. Jeannine Bewley, Kevin McClish, Leroy Wooten, and Mr. and Mrs. Terry Thompson, all of Amarillo, Sherri Stribling, Mr. and Mrs. W.D. Revel and Shawna of Canyon.

Honoring Mr. Voelm as hostesses were his wife, Maggie, and daughter, Patricia.

## The Canyon News

The Canyon News, founded in 1896, is an independent newspaper dedicated to the best interest of the community, state and nation.

A subscription is \$10.50 a year in Randall and surrounding counties and \$13.65 a year elsewhere.

The Canyon News is published Sunday and Thursday at its offices, 1500 5th Avenue, Canyon, Texas. Second class postage is paid in Canyon. Zip Code 79015.

Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of this newspaper will be corrected upon being brought to the attention of the editor.

The Canyon News is a member of the Panhandle Press Association, Texas Press Association and National Editorial Association.

## Bentley Adds Honor To List

Ben Bentley, West Texas State University's academic all-Missouri Valley Conference defensive end, has added another honor to his growing list of awards.

Bentley has become the first WTSU athlete in history to be awarded an NCAA Postgraduate Scholarship. He thus becomes one of 33 top football players from all three NCAA divisions to receive one of the \$1,000 grants.

"I wasn't really expecting it," Bentley said from his home in Oklahoma City. "It's really a great honor."

Bentley was graduated last December with a bachelor's degree in marketing. His grade point average, 3.769 on a 4.0 scale, topped all Buff gridders and earned for him the academic all-Valley nod and an academic all-American nomination.

On the field, the Panhandle native started nine of the Buffs' 11 games in their 6-5 season, all at right defensive end. As a junior in 1973, Bentley was a

part-time starter at nose guard.

Since his graduation, he has been employed by a national meat packing firm (Wilson and Company) as a sales trainee in Oklahoma City. Should he be able to take advantage of the scholarship, he will attend the University of Oklahoma in Norman.

"I'd like to complete work for a master's in business administration," he said.

"I think it's a great honor," Dr. Jack M. Bullock, WTSU's faculty representative said. "I can't believe that it came through."

Dr. Bullock had originally placed Bentley's name in nomination for one of the awards late last year. Bentley had first been named third alternate, but received one of the awards when other winners were unable to take advantage of one of the grants.

This year's list of scholarship winners included Harvard's Pat McNally, Alabama's Randy Hall, North Carolina's Chris Kupec, Notre Dame's Pete

# TEXAS Triangles

The current season of "TEXAS" has been presented for a total audience of 17,565 persons through Thursday evening, July 3, bringing the all time total to 705,797 in the ten years that has been presented in Pioneer Amphitheatre in Palo Duro Canyon.

Triangles this past week went to Karin Cable of Denmark on June 27 from an audience of 1,501 persons. Yoebrant Refrio of Belgium received the June 28 triangle among the audience of 1,773 and Hashmeet Kaur of Kweale, India received the June 30 triangle with an audience of 1,409. Heli Jovinsson of Finland received the July 1 triangle from an audience of 1,164 and Billy and Houn Ju Joyseo of Korea shared the July 2 triangle with 970 in the audience. An audience of 1,535 saw Frank and Bonnie Simmons from Japan receive the July 3 triangle this season.

Among groups at the show recently have been 75 members of former "TEXAS" casts who held a reunion and viewed the June 27 performance and the following evening travel writers from twenty cities were in the audience.

Anthony Daskevich

## Historic Sites Toured On Six-Week Trip Abroad

A six week tour of Europe, Scandinavia and the British Isles has been completed recently by Mr. and Mrs. K.E. Hines of Canyon.

The Hines visited with their daughter, Sondra, and family at Buchenbeuren, Germany where her husband, Dr. Albert King, teaches at Hahn Air Force Base.

At home now, the Hines are awaiting the arrival of several articles purchased in different countries they visited on their trip. Mrs. Hines added several thimbles, salt dips, egg cups and toothpick holders to her collection and Mr. Hines purchased an antique clock for his collection while in Germany along with a wooden clock to assemble from Switzerland.

A retired railroad man, Mr. Hines got three old railroad lanterns while in Germany and England and while visiting the Old Railroad Tower at Beisler, England was given an antique chair used by towermen there. The chair, which is over 100 years old, was taken apart and is expected to arrive in Canyon by mail any day now.

Recounting their trip abroad, the Hines noted taking a three hour boat trip on the Rhine River with abundant grapevines growing on the steep banks.

They also visited at Giessen where W.K. Roentgen, discoverer of the x-ray, was buried and spent several days in Paris where history dates back to 51 B.C. Sightseeing in Paris included the Cathedral of Notre Dame and the Arc De Triomphe where the tomb of the unknown soldier of World War I is at.

They also saw the Hotel Des Invalides which stands 318 feet high and has Napoleon's tomb resting directly beneath the Gold Dome. The Eiffel Tower, built between 1887 and 1889, stands 984 feet high with a view from the top covering 50 miles. They also visited the Louvre and saw many famous art objects including the famed Mona Lisa and toured the Palace of Versailles, built during the 17th century for Louis XIV, which houses the King's great apartment, the Hall of Mirrors, and the Queen's great apartment which are all decorated with artworks by the Masters of the period. The gardens and park of Versailles was created in the 17th century and the gardens and palace have been the setting of many historical events such as the signing of the Treaty of Versailles in 1919 by US President Woodrow Wilson.

The Hines also toured the Scandinavian Countries and departed Frankfurt by train going through Hanover where Mr. Hines' grandfather and grandmother had lived before migrating to this country and saw Bielefeld where Mrs. Hines' grandparents lived before migrating.

The train, on which the Hines were passengers, was switched onto a ferry boat for crossing the North Sea to Rodbyhavn, Denmark. The Hines took a sightseeing trip by bus covering 9 1/2 hours during which the bus went by ferryboat across the Baltic Sea for seeing points of interest in Sweden.

After several additional days of sightseeing, the Hines returned by rail to Frankfurt, before departing on a tour of Switzerland. They traveled through Heidelberg, Stuttgart and passed through the Black Forest before arriving at Zurich, Switzerland where it was noted that 1,100 passenger trains are run daily.

A city tour was made of Zurich before traveling to Luzern for several days of sightseeing, and a trip by cable car to the top of the Alps with an electric cog railroad for descent of the Alps. Continuing their trip by bus, the Hines visited Interlaken recalled as "a most beautiful city where a lunch of fresh Rainbow Trout was served in an outdoor cafe on the riverbank."

The Hines also visited in Bern, the capital city of Switzerland, and returned to Germany via the

autoban highway passing much lush farmland along the way.

Another segment of sights for the Hines included a trip by train to Bruxelles, Belgium where they visited a church built in 1100, and saw a lace factory where lace is still being handmade. After traveling to Oostende by train, the Hines took a four hour boat ride to Dover, England and then went by train to London and Oxford and Beister where they were again united with their daughter, Sondra, and family. The King family had been moved to Upper Hayford Royal Air Force Base where he will be teaching until mid-August and then return to the United States.

Points of local interest seen there were the Blenheim Castle where Winston Churchill was born and the Stratford-Upon-Avon where Shakespeare was born along with the home of Ann Hathaway, Shakespeare's wife. They continued to Edinburgh, Scotland for several days of sightseeing including castles, several museums and galleries as well as birthplaces of numerous famous personages such as Burns, Scott and Stevenson. The Hines noted that Robert Louis Stevenson wrote "Treasure

Island' on the Island of Samoa, while in ill health, and Alexander Bell was born and educated in Edinburgh before coming to the United States and ultimately inventing the telephone.

After a few days additional visit in the home of their daughter, the Hines continued their trip via London where they saw the Tower of London dating back to 1078 where Sir Walter Raleigh was imprisoned for 14 years and which now houses a display of crown jewels along with an 8,000 ounce punch bowl and the world's largest diamond. In London, the Hines also saw Westminster Abbey which has been the coronation site for numerous English Kings and Queens. They took a boat ride on the River Thames, visited the English Parliament, heard Big Ben toll the hour and saw the changing of the guard at Buckingham Palace.

The Hines departed London at the noon hour and arrived at New York's Kennedy Airport, and with the time change of five hours had time for a short tour of New York City, before leaving for Dallas and Amarillo and home.

## Umbarger News

By REBA RAEF  
I JUST CHECKED with Vincent Ramaekers, manager of the Umbarger Co-op Elevator and he said that except for a few isolated spots, the wheat crop is all harvested.

This year, the Co-op received 29,000 bushels of wheat, which is about one third more than any year in the last twelve. That's a lot of wheat.

MRS. MARY FRIEMEL, mother of R.D. Friemel is a patient in St. Anthony's Hospital in Amarillo. Mrs. Friemel fell last Saturday and broke her hip. She was to have had surgery on Wednesday. We wish her a speedy recovery.

MR. AND MRS. Lloyd Sutton attended the Fourth of July celebration in Canyon this year. Mrs. Sutton's family and the family of Jack Hightower were neighbors when Mrs. Sutton was a child. She had not seen Jack for quite some time until he came to Canyon for the festivities.

Mrs. Sutton said that they enjoyed visiting and talking about their old friends and neighbors.

RANDY CONRAD FROM Gila Bend, Ariz. spent last week visiting the Vincent Ramaekers family. Randy is a nephew of Rose Mary's. He plans to spend the summer in Texas, visiting

4-H seamstresses from Randall County are putting the final touches on their sewing projects this week in preparation for the

## Art Teacher's Works At Bank

As a part of their continuing series of art appreciation, the First National Bank of Canyon presently has displayed numerous artworks by LaNell Hagemeier.

The display of paintings, pencil sketches, oils, acrylics and bronze castings of Pioneer Women will continue through July 18 during regular banking hours.

A teacher of art at Canyon High School, Mrs. Hagemeier's works record the historical beauty found in Texas and New Mexico. She has had numerous showings of her works across the Panhandle and holds the BS and ME degrees from West Texas State University.

## Wheat's In!

here and with other relatives in Nazareth. \*\*\*

THE MONTHLY CHARITY suppers, sponsored by the Knights of Columbus will not be held again, until Fall, when everyone is not so busy.

MRS. HENRY BRACHT went to Windthorst, Tex. last weekend, to attend the Golden Jubilee celebration for her sister, Sister John Damascene and four more Sisters from Windthorst.

The Sisters had entered the Incarnate Word convent at the same time. The celebration was held on Sunday and about three hundred relatives and close friends attended.

The Altar Society prepared box lunches for the crowd and according to Mrs. Bracht, "a good time was had by all."

THERE WASN'T TOO much going on around Umbarger these past few weeks, but now that harvest is over, we should have a little more activity around here.

MRS. MARGARET CANON, from Van Alstyne, Tex. is here visiting her cousin, Clarence Beckman.

CALL ME AT 499-2164 with your news items. Reba.

For one of the city's newest families, the move to Canyon will mark their twenty-second home in a span of 30 years.

Retired Army Brig. Gen. Anthony Daskevich, along with his wife and two sons arrived in Canyon Monday from Warren, Mich. where he was deputy commander of the U. S. Army Tank-Automotive Command. Daskevich retired June 30.

Daskevich entered the Army in 1941 as a private and has held every rank up to brigadier general. In addition to all the enlisted ranks and those as a commissioned officer, the retired general also held a commission as a warrant officer.

During World War II, Daskevich was decorated with the second highest award given for battlefield heroism, the Distinguished Service Cross.

The DSC came as a result of Daskevich's efforts in breaking through the German lines as a commander of a tank platoon. His platoon was the only one that penetrated the German lines. The next day, the single penetration enabled the rest of the company to advance.

"We were very surprised when we checked the coordinates and realized where we were. I contacted the company commander and he said I must be mistaken,

there was no way we could have been there," Daskevich said.

In addition to the DSC, the retired general has been awarded two Silver Stars, three Legion of Merit Awards, two Purple Hearts, the Army Commendation Medal and other service and battlefield honors.

Following the war and a battlefield commission as a second lieutenant, Daskevich joined the occupation forces in Germany during the Korean conflict. In 1952, Daskevich returned to the states as an instructor at the Aberdeen Proving Grounds for three years.

After his tour at Aberdeen, Daskevich went to language school in Monterey, Calif. and studied Spanish. From there, he went to Venezuela as an advisor to the transportation and ordinance corps of the Venezuelan Army. "The tour in Venezuela is one of the highlights of my career. While my family and I were there, the government was overthrown," Daskevich said. With no police or government, it was a pretty tight situation he added.

From 1959 to 1963, Daskevich attended the Air University at Maxwell Air Force Base in Alabama, studied future Army support and weapon systems at Aberdeen and attended the

Armed Forces Staff College in Norfolk, Virginia.

In 1963, he was sent to Korea as a battalion commander, then, in 1964 served in the Pentagon as a member of the general staff in logistics. After a year at the Industrial College of the Armed Forces, Daskevich returned to the Pentagon.

In 1969, the retired general went to Toole Army Depot, Utah as commander. As commander, Daskevich commanded 4,600 civilians and 50 military personnel in the rebuilding and distributing of Army equipment.

In 1971, he was notified of his selection as a general officer and in the same year, went to Germany as commander of the 7th Corps Support Command. Two years later he was transferred to Warren, Mich. where he retired.

The Daskevich's decided to move to Canyon because of their like for the "open spaces and rolling country."

"The people here are so friendly. Their friendliness is just out of this world," he said.

Over his 34-year career, Daskevich has seen many changes in the Army. He has seen the old "brown boot Army" evolve into today's all-volunteer Army.

"A lot of people thought the volunteer Army wouldn't work,

but it has worked and is working. Today's soldier is there because he wants to be there." Because of this, the quality of the troops is getting better and better he said.

Daskevich identifies his philosophy as being "people-oriented" and, although positive changes have been made in the Army over past few years, he believes more is needed.

"I'm not convinced that we in the Army don't do enough for our people. We still have troops living in World War II barracks. The Army is like anything else.

The essential element is people and we have to learn that without people, the systems aren't worth a dime. We just don't look out for our people the way we should."

The Daskevich family has set aside the next year with no particular plans except to travel and get in some fishing as the retired general is an avid fisherman.

Daskevich plans to keep up with the Army and to help promote it in any way he can through the various veteran organizations.

**THE STATE OF TEXAS**

TO: DONNIE JOE MOSELEY

GREETING:

You are commanded to appear by  
filing a written answer to the  
plaintiff's petition at or before 10  
o'clock A.M. of the first Monday  
after the expiration of 42 days  
from the date of issuance of this  
Citation, the same being Monday  
the 18th day of August, A.D.,  
1975, at or before 10 o'clock A.M.,  
before the Honorable 47th Dis-  
trict Court of Randall County, at  
the Court House in Canyon,  
Texas.

Said plaintiff's petition was filed  
on the 4th day of March, 1975.  
The file number of said suit being  
No. 14,344-A. The names of the  
parties in said suit are: IN THE  
MATTER OF THE MARRIAGE  
OF MARIA V. MOSELEY, and  
DONNIE JOE MOSELEY.

The nature of said suit being  
substantially as follows, to wit:  
Suit to dissolve marriage and ap-  
point managing conservator.  
If this Citation is not served  
within 90 days after the date of  
its issuance, it shall be returned  
unserved.

Issued this 3rd day of July  
A.D., 1975.

Given under my hand and seal of  
said Court, at office in Canyon,  
Texas, this 3rd day of July  
A.D., 1975.

## ANNOUNCEMENT

Swisher Electric Cooperative, Inc., S.W. 2nd Street in Tulia, Texas is pleased to announce that it has made an application for a loan from the Rural Electrification Administration which will provide for the construction of about seven (7) miles, of 69,000 volt transmission line. This line will be located in portions of NE Swisher and SE Randall Counties. There is also planned a substation to be built that will be served from this line.

These facilities, alone with other low voltage distribution lines will make it possible for the Cooperative to improve service and to provide additional capacity when needed to those existing services now being served in the area and new consumers as required.

If there are any comments on the environmental aspect of the proposed construction they should be submitted in writing to the Cooperative either at its office in Tulia or to P.O. Box 67 Tulia, Texas 79088, within thirty (30) days of the publication of this notice. Additional information may be obtained at the Cooperative's office at the above address.

## TEXAS TALK

By Tom Lytle

All it takes is a glance at your own checkbook to know that in the long run you have to have more coming in than going out. The same principal works with nations as well. That's why an international trade surplus is more desirable than a trade deficit. American farmers last year did far more than any other segment of U-S industry to reduce a trade deficit topped off by the high prices of mid-eastern oil. Agricultural exports last year were worth 22 billion dollars, producing an agricultural trade surplus of nearly 12 billion. This contribution by food and fiber producers brought our total deficit to 3 billion dollars. Still high, but much less than some economists thought it would be. Those figures from last year are considered by many to be the harbinger of agriculture's future importance to the U-S position in world affairs. Farmers and ranchers are moving more directly into the limelight as they produce enough to keep us number one.

3108 Amarillo Blvd.  
Amarillo

## SCS Warns Of Poison Plants

Canyon's district conservationist with the Soil Conservation Service warned this week that several plants found in homes, yards and gardens at this time of year are poisonous.

Poisonous house plants include the poinsettia, the leaves of which are toxic. The elephant ear is also toxic and can cause severe burning and irritation of the mouth and tongue, says Bill Casteel.

Larkspur is a poisonous garden plant, the seeds of which are toxic. The iris is also a toxic plant with the underground stems being poisonous. Wisteria seeds and pods are toxic.

Buttercups are poisonous flowers found in fields and the purple nightshade is also poisonous.

## Twirling Camp Held At WTSU

West Texas State University will host twirling and gymnastic camps today through July 11 in the Student Activities Center for more than 250 students of all ages.

In twirling, classes are planned for beginning and contest twirlers and high school majorettes.

In beginning twirling, students will be shown the fundamentals of twirling and strutting. Special classes are planned for individual contest routine aid, including show and novelty work, with daily contests in leaps, high throws and rolls. High school majorettes will be shown routines for halftimes shows, fanfares, dance twirls to band arrangements and for the side-lines. Private lessons will also be available.

Twirling camp directors are Larry and Jan Bilhartz of Stillwater, Oklahoma.

The gymnastic camp will feature classes for beginning, intermediate and advanced boys and girls. Instruction will be given in all Olympic events plus tumbling and trampoline. Students will have an opportunity to entertain, either as individuals or in groups, at the special Stunt Night program.

## Employment To Be Eyed

Local representatives of the Bureau of the Census will interview a sample of households in this area during mid-July to obtain information on employment.

The Bureau is part of the U.S. Department of Commerce's Social and Economic Statistics Administration.

Percy R. Millard, Director of the Bureau's Regional Office in Dallas, said that interviewers will visit homes also to obtain information about languages other than English spoken in the household and if more than one language is used.

These questions will be in addition to those asked regularly in the monthly survey. This survey, which the Bureau conducts each month for the U.S. Department of Labor, provides a continuous measure of employment and unemployment for the Nation. For example, the May survey showed that employment rate rose to 9.2 percent, while total employment expanded for the second straight month.

Information supplied by individuals participating in the survey is kept confidential by law and results are used only to compile statistical totals.

## City. . .

(Continued from Page 1)

missioners to "if you feel there's a need for an ordinance — and we see no need — then make it comply with the state law as closely as possible."

The SWPSCO official said his firm has historically tried to maintain the same rate schedule in each of 67 cities served by the company and that might not be possible in the future should each city on the system decide to pass a regulatory ordinance.

He said the company would incur additional expenses in trying to comply with the regulatory requirements of each city should they all pass separate regulations.

McMorries contended that utility regulation should be adapted to the local situation and that the loopholes in the state law should be plugged with an effective local ordinance. McMorries also contended that it would be virtually impossible to coordinate the feelings of 67 cities to produce unified ordinance.

Mayor Manly Bryan said the city should view the controversy with two questions in mind: "One, would it be helpful to the commission, and two, would it be helpful or a hindrance to the utility companies."

The 14-page ordinance proposed by McMorries includes basic data on how rate increases for utilities will be figured and how the fairness of those hikes will be determined.

In other business, commissioners approved on first reading an ordinance granting a franchise to T.D. Austin of Amarillo for operation of a cable television firm in the city.

The franchise allows Austin to operate for 15 years in the city. Austin told commissioners he has determined from the Federal

## City Cadet Ends Training

Cadet Lewis Yale Poland, Jr. of 99 Poole's Trailer Park, Canyon, Texas, recently completed airborne training at Fort Benning, Ga.

Poland participated in the intensive three-weeks of physical conditioning and instruction in airborne techniques as part of a program in which the WTSU cadet joined senior ROTC students from throughout the United States at Fort Benning to acquire the skills of a military parachutist.

During the third week of the airborne school, Cadet Poland accomplished the prescribed 5 airborne jumps required to attain the silver wings of the airborne soldier.

Poland will return to the WTSU campus this fall to complete his final year of school. Upon graduation and successful completion of the ROTC Advanced Camp at Fort Riley, Kansas, next summer, Poland will be commissioned as a U. S. Army Second Lieutenant.

## Schools To Open Here August 20

The end of summer is fast approaching for Canyon's public school youngsters who will be back in classes on August 20. Registration day (not presently set) will mark the end of summer vacations.

## Parks. . .

(Continued from Page 1)

be possible to generate the paperwork required for the application by Sept. 1.

The committee is to meet again July 17 to report back on cost figures on the various aspects of the project. Then, the committee will meet July 21 with the city commission to present the tentative proposal.

Costs are to be obtained on the six tennis courts, the land to be purchased from Crossland, baseball diamond construction, parking areas, and landscaping and dirt work.

Communications Commission that he can obtain without trouble Channel 39 for his cable service. Other applicants for the franchise told commissioners they could not obtain Channel 39 and they withdrew their proposal, leaving only Austin as a contender for the franchise.

The ordinance passed on first reading Monday night gives Austin two years from the date he receives FCC approval of his proposal to have 90 per cent of his system completed and underway in Canyon.

The franchise agreement also sets the rates which Austin may charge, including a monthly rate of \$7 for the first outlet and \$1.25 for each additional outlet. Installation charge will be \$17.50.

Commissioners approved the refunding of \$930,000 in certificates of obligation as recommended by Financial Advisor Bob Davis of Amarillo.

Davis said the city could save several thousand dollars in interest by refunding the certificates now rather than upon completion of their new civic center in October because he anticipates that interest payments will be hiked before that time.

Davis explained following the meeting that the city will pay in cash a portion of the certificates of obligation and then will begin making payments for completion of the civic center directly to the contractor. About \$500,000 will be financed through 12-year bonds to complete the pay-off.

Commissioners agreed to a plan presented by Donald Day of the Texas Highway Department that the striping on 23rd Street be centered with only a handful of parking spaces on the west side of the street to be eliminated between 6th and 7th avenues.

They also approved the city audit report prepared by Gene Glazener for the fiscal year ending April 1, 1975.

Glazener reported he found the city's books in order, but noted one problem area in the audit of the federal revenue sharing fund books.

He recommended the city file a required form with the U.S. Department of Labor to fully comply with the law concerning use of federal revenue sharing funds.

Failure to file the form, he said, could cost the city as much as \$510,000 in penalties.

## Burk Infant's Birth Is Told

Mr. and Mrs. Billy T. Burk, Jr. of 1600 N. Fairfield, Amarillo announce the July 1 birth of a baby boy at Palo Duro Hospital in Canyon.

The baby has been named Billy Chris and weighed 10 pounds, 3 ounces at birth while measuring 21 1/4 inches.

The Burks have an older son, Benjamin, age 4.

Father of the infant is employed with International Paper Company, Long Bell Division. Grandparents are Mr. and Mrs. Graciano Herrera of Happy and Mr. and Mrs. Bill Burk of Taos, New Mexico.

## Annex. . .

(Continued from Page 1)

not spend more than \$300,000 on a new South Amarillo structure. But, they opted for a \$579,000 building in the fall of 1974 and with change orders the building is now costing them \$603,000.

They had also anticipated paying for the building with revenue sharing funds.

But, so far, they have received \$336,000 in revenue sharing funds and have extended \$240,000 from that account. More than \$140,000 of that expenditure total went for purchase of land for the annex.

The other \$100,000 has been spent on salaries and related personnel costs, for new equipment for the road and sheriff's department and various payments.

## WTSU Adds Track Runner

Joe Bishop, a qualifier for the national Junior Olympics track and field meet later this month, is the newest addition to West Texas State University's 1976 track team.

Coach Bob Kitchens made the announcement Monday that Bishop has signed a national

letter-of-intent to attend WTSU on a track scholarship. Bishop is the fourth new trackman announced, and the second high jumper.

Most of Bishop's top jumps have been this summer. He cleared only 6-2 while competing at Plainview High, but this summer has twice jumped 6-6 in area Junior Olympic meets. He will compete in the national meet next week on the campus of the University of Southern Mississippi in Hattiesburg.

"Joe will be an excellent addition to our corps of high jumpers for next year," Kitchens said. "He's made a vast improvement in a short amount of time, and that encourages us to think that he can go much higher."

Bishop will join Tommy Williams, a 6-10 leaper from Lubbock Estacado and Brent Sherrod, the 1975 WTSU intramural champion at 6-5, as WT's high jump entries in 1976.

## Moore Wins Radio

Max Moore of Canyon was the recipient of a 23-channel citizens band radio awarded by the Buffalo Breakers, local CB group, during the July Fourth festivities at Conner Park.

## News Brief

Sharon Lindemann, a junior at Canyon High School, will be among 1800 delegates representing over 439,800 Future Homemakers of America (FHA) at the organization's 1975 National Meeting in Washington D.C., July 14-17.

## County. . .

(Continued from Page 1)

Fulgenci's idea.

Potter County commissioners and Amarillo officials have met several times recently to discuss the construction of a joint jail for their entities to share.

Sheriff Cliff Longest told Fulgenci Randall County's jail is not operating near capacity and has room for further expansion and addition of another floor.

But, Fulgenci argued that in the next two decades federal and state regulations might be so stiff the Randall County jail would fail to meet the standards, thus requiring local taxpayers to foot the bill for a new jail.

"If that happens," Longest said, "there'll be 254 counties out of the jail business."

Finally, County Judge Woody Pond offered to contact either Amarillo City Manager John Stiff or Potter County Judge Branch Archer about the possibility of Randall County meeting with the two entities during the planning stages.

"We'll have to play the whole thing by ear," Longest said.

While Pond was not actually given the go-ahead to make contact with the other two governmental bodies, he said following the meeting he "might" call them to make initial contact.

Commissioners approved a contract with Jake Diel of Canyon for seal coating and paving of fewer than 20 miles in the county this summer. Diel was lone bidder for the job and bid a price of 25 cents per square yard for single penetration seal coating and 73 cents per yard for paving.

Data Forms and Systems Inc. of Amarillo was low bidder for several thousand forms for the tax office. The firm bid a low price of about \$2900. A bid of \$297 of Uarco of Amarillo was accepted to provide several thousand window envelopes for the tax office.

Commissioners also approved a change order totalling \$23,000 for addition of partitions to their south Amarillo courthouse annex.

The total also includes other minor changes to the courthouse project.

The approval of the change order pushed the total cost of the new structure over the \$600,000 mark to \$603,725.

## Stipend Goes To Local

West Texas State University student Steve Connelly has received a \$1,000 James McCulla Memorial Scholarship/Fellowship from the Radio and Television News Directors Foundation.

His TV news documentary on single member districts was one of three such university and college entries awarded nationally.

The son of Mr. and Mrs. James F. Connelly of 150 Centre, Hereford, is a WTSU senior majoring in radio and television and journalism. He will continue his education at West Texas State

with his grant.

Connelly, who is currently working at KGNC Radio in Amarillo, resides at Chapparral Mobile Home Park in Canyon.

He will receive the award at the annual convention of the Radio and Television News Directors Association Sept. 16 to 20 in Dallas, Texas.

## Sammy Howells

## Have Baby Girl

Mr. and Mrs. Sammy Howells of 306 4th Avenue, Canyon announce the birth of a daughter, Shiann Dawn, on June 30 at Palo Duro Hospital in Canyon.

The baby girl weighed 7 pounds, 8 ounces at birth and measured 20 1/2 inches.

Grandparents are Mr. and Mrs. Rick King of Canyon and Mr. and Mrs. Sam Howell of Crane.

## Sr. Citizens Meet

Canyon's Senior Citizens will conduct a business meeting at 6 p.m. today, July 10, at the Canyon Community Center preceding the weekly covered dish supper and fellowship for all senior citizens.

## I DON'T ADVERTISE BECAUSE. . .

I don't know how to make up an ad!!

Don't worry - we'll create the ads for you. . .

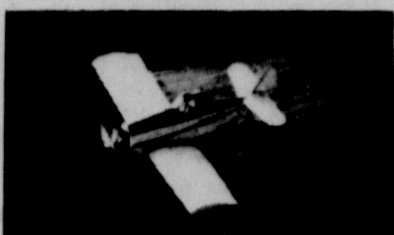

• The Canyon News maintains a fully staffed, professional copy-layout department for advertisers just like you.

• Actually, good ads follow some simple guidelines: Keep your ads uncluttered with enough white space to make your ad stand out. Feature your main thought (price, quality, etc.) in the headline. Make your copy easy to read.

Phone 655-7121 and ask to have a Canyon News ad representative call on you with full information at your own convenience.

News

# Columnist Says "Five" Is Unlucky Number

By KAROLYN FARMER  
FIVE IS DEFINITELY not my lucky number. I just realized that it's only a little over five months until Christmas; and school starts in five weeks.

I've got five loads of dirty laundry stacked up in the washroom. And I've only got four hours to get this column written. (It was five when I started—but it's taken me an hour to write this much.)

So before acute depression sets in, I'd better get on with the news.

GARY BEASLEY IS his name and teaching P. E. is his game. (Now, isn't that a clever line.) Gary has just signed a contract to teach P. E. at Gene Howe this year (replacing Rickey Smith). He will graduate from WT in August with a major in physical education and is really looking forward to teaching at our school.

Gary and his wife, Debra, live

at Lakeview Mobile Park near the school. Their "family" consists of two grown Norwegian Elk Hounds and 7 two-week-old puppies. Incidentally, if you're in the market for a puppy, call Gary at 355-5026.

The Beasleys are both natives of Amarillo; Gary graduated from Palo Duro High School and Debra is a graduate of Caprock.

Gary has been working in the recreation program at WT this summer. His hobbies include playing league softball, hunting and fishing. He plans to continue his education and get his Master's Degree sometime in the future.

Debra works for the Northwest Texas Hospital District as a key tape operator in data processing.

She plans to go to nursing school this fall.

Gary told me that he and his wife both love this area and are really excited about being associated with Gene Howe.

HELEN SHELTON, THE sister of Ernestine Harp, was up from Frisco, Texas this past week end visiting Bill, Ernestine and Dena.

Ernestine is now at home following a week's stay in the hospital and is feeling "just great—almost."

SHEILA AND JOHN Hicks participated in the Bi-Centennial Swim Meet this past week end. The meet was held at the University of Texas Permian Basin. Phyllis Hicks told me that the facilities are new and are really fantastic. She recommends that anyone going to Odessa should definitely visit the new UTPB campus.

Johnny and Phyllis are both proud of their children's accomplishments. Sheila made her "A" time in the 100 breast stroke and received a 4th place medal for her leg of the 400 free relay and the 400 medley relay. She received ribbons in the following "B" events: 50 free, 1st place; 100 fly, 4th place; 100 back, 5th place; 100 free, 8th place; 200 free, 2nd place; and 200 individual medley, 9th place.

John was asked to fill in a leg of the age 10 and under relays and his team received two 4th place medals. John competed against 39 other boys in his division, placing 13th in the 50 free and 15th in the 100 free.

The medals which were

awarded to the swimmers are Bi-Centennial commemorative coins which, by special permission, were made into medals for this meet. Phyllis tells me that the coins are a limited edition and are also collector's items.

IF YOU'RE ANYWHERE around Red River this summer, be sure to stop in and eat at the Star Barbecue restaurant. Bill Dee Seth, son of Bill and Pat, is working at the restaurant this summer.

CAROL AND JERRY Hollingsworth, Hart, Hunter and Heather have recently returned from a three-week missionary crusade in Nigeria. The group from the First Baptist Church of Amarillo left on May 31st. They had a three-hour layover in New York City and then a 24-hour layover in Paris.

Carol said that while in Paris they stayed at a quaint hotel, enjoyed a ride on the underground railroad and visited the Eiffel Tower. From Paris their plane flew over the Mediterranean Sea and then over the Sahara Desert.

Their first stop in Africa was in Lagos, the capital of Nigeria. Carol told me that missionaries are not allowed in Moslem-dominated Lagos and they were fearful that all of their religious materials and Bibles would be confiscated when they went through customs. They were really surprised and grateful, however, to get through customs with none of their bags even being opened.

The hotel where the Hollingsworths stayed in Lagos was owned by a Lebanese man; and

the group was treated to Lebanese food and entertainment while there.

After a night in Lagos the group traveled on to Kaduna, Nigeria. There they were greeted by Mr. and Mrs. Dewey Merritt who are stationed there as missionaries. The Merritts formerly lived in Amarillo while on furlough.

Once in Kaduna, the group from Amarillo spent most of their time witnessing, visiting the native people and putting on Christ-centered shows for the people. Carol and the children gave many puppet shows at the schools and churches. They also appeared on a TV show in another city near Kaduna.

Carol said that they visited a nearby village called Koal where the people live in mud huts and the only "plumbing" is drainage ditches in the ground. They spoke to the people there through interpreters and Carol was thrilled when a Moslem woman to whom she witnessed accepted Christ.

Hart Hollingsworth, who is 15, was part of a singing group who presented programs to the Nigerian teenagers. Carol also told me that their daughter Heather was a special favorite of the Nigerians, who really love little children. She said this is partly because 50 per cent of the children die before they are five years old.

Carol and her children visited some of the Nigerian schools and enjoyed teaching American games and songs to the African children. She also made tape recordings of some native songs which she plans to share with her

kindergarten children at Gene Howe. She also learned some African games which she will teach to the Gene Howe children.

Carol celebrated her birthday while in Nigeria — on June 13th — and said it was the most special birthday she's ever had. She was honored with a cake and a three foot tall birthday card.

The trip back to the United States included a stop in the city of Kano where they visited the "Inner City." Carol said that the Moslem section is just as it was centuries ago. They rode on camels in the camel market and visited the dye pits where the people still dye their cloth. She said that the streets were just wide enough for two people to walk side by side.

The plane also had a layover in Brussels where the Hollingsworths visited St. Michael's Cathedral, the flea market and the art galleries.

While in Nigeria Carol and her family received gifts of leather purses, sandals and African clothing, which Carol is anxious to show to her kindergarten children.

She said they all had a marvelous time and were already planning to participate in their church's mission crusade in Alaska next year. Carol told me her motto now is "Have puppets, will travel."

ANITA AND DUANE Harp have recently moved to a new (and romper) home. They now live at 4304 Lipscomb in Amarillo.

GARLAND AND CHRISTY Horton and Kim went to Dallas this past week to visit with Christy's grandfather, Mr. Frank Loper. Mr. Loper celebrated his 100th birthday on May 11th of this year and was honored by the City of Dallas as being the oldest resident of that city.

Christy said that her grandfather lived by himself until last year and was still able to pass his driver's license test, even though he no longer drives.

BRENDA AND LUTHER Lawless and family have had to postpone their vacation trip this summer. Brenda is scheduled to enter Northwest Texas Hospital on Friday, July 11th. We send her our best wishes and hope her stay in the hospital will be a very short one.

JANE AND JERRY Davis, and their children, Valerie, Teresa, Kent, Scott, Melinda and

Melissa took a flying trip to California last week.

Jane said they drove 2,600 miles in seven days. They visited the zoo at San Diego, took an ocean cruise, went to Disneyland and Sea World and toured the Universal Studios in Los Angeles.

Jane told me that they were headed back toward Las Vegas when the floods hit that city, so they had to make a detour. The Davises also took in the races in Santa Fe before heading on home.

THE 5TH GRADE girls softball team won their 13th straight game Monday night, defeating Olsen Park by 18 to 7.

Coach Euris Phipps says they are the only undefeated team in their league. They have one more official game and then will play several games in the Kids, Inc. tournament.

JOAN AND CHARLIE Fowlkes, Brad and Bo are keeping busy this summer as hosts to international students. Charlie is chairman of the International Student Services program through the Amarillo YMCA and Joan is in charge of placing them in homes while they are visiting in our area.

Last week the Fowlkes were visited by Hiroyuki Satake of Japan. Mr. Satake is a businessman who has been attending wheat seminars in Canada before coming on to Texas.

This week Abdalla El Wakil of Egypt spent two days with the Fowlkes as part of his tour of America. Next week Joan and Charlie are expecting a group of students from Japan.

The International Student Services program is an exchange program among students from all over the world through the YMCA's. If you would be interested in hosting a foreign student for a short time, you may contact Joan at 622-0380.

OUR SYMPATHIES ARE extended to the Royal Yarbrough family. Royal's sister-in-law, Carol Yarbrough, was killed in a car-train accident north of Amarillo this past Sunday. His brother, Ross Yarbrough, at the time of this writing is reported to be in serious condition at Northwest Texas Hospital.

WINNIFRED AND JIM Golden, Kevin and Becky took a camping trip to New Mexico last week. They were joined by Teresa

True and Tony Bynum. They spent two days in Red River shopping and horse back riding and then went on to Santa Fe and Cowles, New Mexico.

The Goldenes reside on Monterey Circle and have only lived in the Gene Howe area a few months. Winnifred is the daughter of Helen Fain, our school cafeteria manager.

IN THE "WHAT are they doing now" department: Cindy Cox, daughter of Betty Cox, is now living in Denver, Colo. where she is managing the Hilton Restaurants.

Betty's son Gary, (who is famous for his past "performances" selling programs for "TEXAS"), is now working for Ernest St. Clair Auction Sales and is busy traveling throughout Texas and Oklahoma. Gary will be back as a student at Tech this fall.

THE "WHAT ARE THEY DOING" team sponsored by A&S Steel Buildings played their final game on Tuesday, July 1st. They beat the team from Oakdale school by 27 to 4 and ended the season in third place in their league.

The team's coaches, Kyle Farmer and Bob Trook, were really proud of the progress made by each of the boys this season.

KEVIN AND MARY Burke are visiting in the Alton Stokes home this summer. They are the brother and sister of Betty Stokes and are from Blueridge, Texas. Kevin is working for Mayfield Roofing.

Tim Stokes, who plays on the 5th and 6th grade boys softball team, suffered an accident in one of their games last week. Tim slid into 3rd base head first and severely jammed his neck.

Betty said that X-rays were taken and didn't reveal any serious damage, but that Tim will have to wear a neck brace for several days.

BELIEVE IT OR not, I finally got to leave home — for a day anyway. My mother-in-law, Mrs. Major Farmer along with my sisters-in-law, Ann Farmer and Lewann Garlin and her son David, went to Lubbock last Tuesday for a day of shopping, eating and having fun.

While the women shopped in the big mall there, David hunted for a car for himself. He's looking for a Volkswagen convertible, and if you know of one for sale, please let me know. (You'd be helping me score some Brownie points with my in-laws.)

IN THE "I'M not ready for it" department: School enrollment will be on August 18th and school begins on August 20th. The teachers will have an in-service week beginning on August 12th.

MARY NEAL HENRY, you really know how to surprise a person. I'd love to meet you and I believe I'll just take you up on that offer sometime soon.

## Stevens Entertain Holiday Houseguests

Mr. and Mrs. George T. Stevens, Jr. had a number of houseguests at their home, 513 11th Avenue, during the July Fourth holiday period.

Arriving Friday morning, July 4, at the Stevens home was their son and wife, Ronnie and Norma Stevens, from Tucson, Ariz. who were accompanied by Norma's aunt and uncle, Mr. and Mrs. Walter Minnick, also of Tucson.

The group spent Friday evening at the outdoor musical drama "TEXAS" in Palo Duro Canyon and then Saturday evening had a backyard cookout at the Stevens home.

Joining the Stevens for the cookout were the houseguests from Arizona along with other guests including Aileen Thurmond of Seymour, the mother of Mrs. Stevens; Jewell Hill of Canyon, Mr. Stevens' mother; Pam and Phil Stevens and infant daughter, Tonya Kay, of Canyon; Wilkes and Rhonda Stevens of Canyon; Mr. and Mrs. Bill Dugan and daughter, Cindy.

from Happy and Cindy's cousin, Shalene Vineyard, of Kress; Mr. and Mrs. Ken Thompson and son, Grant, and daughter, Christy, of Canyon; Marge Sharp and sons, Ted and Tom, of Canyon and Dennis McDonald of Borger.

The Stevens son, Wallace, who is stationed in Germany with the United States Army was the only family member unable to attend the affair and visited with the group "by phone" on Sunday.

### Dames Plan Tour

Canyon Dames have scheduled a tour of Irwin's Greenhouse for Thursday, July 10. Members will meet at the Methodist Church in Canyon at 10:15 a.m. for departure to the Greenhouse.

### Priscilla Club

#### Has Summer Meet

The Priscilla Club members met Wednesday, July 2, at the home of Mrs. Dewey Foster where a dessert course of ice cream, cookies and coffee were served.

Members present for the event were Mesdames Tom Brasher, Clay Cooper, W.F. Haggard, M.J. Noel, Gladys Marshall, Dudley Moore, Sr., Kelly McGeehee, J.M. Daugherty, and Bailey McCormick.

### Wedding Gifts Fete Couple

Wedding gifts were bestowed on the impending marriage of Miss Marsha Patton and her fiancé, Denis Weldon Smith, at the Heritage Chapel of the First Christian Church.

Receiving guests with the honoree was her mother, Mrs. W.A. Patton, and Mrs. Ruth Smith of Tulsa, mother of the prospective bridegroom. The bride-elect's sister, Debbie, was also present for the occasion.

Punch, cookies and mints were served from a table with a white lace cloth and centered with a wedding candle in a milkglass bowl which was surrounded with yellow and white flowers in the bride-elect's chosen color scheme.

Co-hostesses for the occasion were Mrs. Marion Higdon, Mrs. Inez Martin, Mrs. Earl Hadley, Mrs. Louis Hinders, Mrs. J.G. Voelm, Mrs. Sam Jolly, Mrs. Gus Miller and Mrs. Marie Britian.

### Palo Duro Mission

Outdoor worship services are held each Sunday during the summer months at Cottonwood Grove, just beyond the fifth water crossing, in Palo Duro Canyon.

At last week's services, 126 campers and others attended the morning worship rites where an "iron cowboy" is presented to those present from the farthest distance. Mr. and Mrs. Edward Joling of Kalamazoo, Mich. received the distance award.

**R** IT TAKES KNOWLEDGE  
TO TREAT THE SICK

Despite great advances in medical knowledge, there are still some people who depend on old fashioned self-treatments. Some let persons with no drug or medical training advise them what medicines to take.

When door-to-door peddlers or mail order opportunists presume to tell you what to take when you are sick—be wise. In order to treat sickness a diagnosis of the cause is needed. No one but a physician has this knowledge.

"A GREAT MANY PEOPLE ENTRUST US with their prescriptions, health needs and other pharmacy products. We consider this a privilege and a duty. May we be your personal family pharmacy?"

**The Shell's Pharmacy**

Happy News

# Wheat Almost Harvested Now

**BY MARY NEAL HENRY**  
WHEAT HARVEST IS all but over. Only a few acres remain to be finished. Some of the wheat in South Randall County also made a forty bushel yield... dry land too. One volunteer patch of wheat was reported to yield thirty two and a half bushels. Irrigated wheat often fared little better than dry land wheat. Some irrigated wheat in the Happy area was reported to yield between sixty and seventy bushels to the acre.

Rains have been scattered in the area. Some showers have covered some little area that all one field wouldn't be watered.

**HAPPY ALL STAR** Team, Mark Tackitt, Lonnie Tuck, Scott Railsback, Doug Peterson, James Moore, Jamie Johnson, Noel Danner, Danny Venhaus, Donny Venhaus, Ronnie Harvey, Darren Johnson and Monty Johnson, played their first All Star game in Happy last Thursday evening. Nazareth won by a score of thirteen to seven.

James Moore began pitching the game and the Nazareth team led by a score of nine to nothing before Coaches Gary Baggett and Neil McCarley put Mark Tackitt pitching. Mark allowed only five more hits, two of them made on errors, and Happy began hitting and playing good defensive baseball. We just got started too late and lost the game thirteen to seven.

Saturday night at Nazareth Lonnie Tuck and Scott Railsback pitched. Happy All Stars lost that game fourteen to four. That ended the season for the little league this year.

The Happy Chiefs did not lose a game all year. In fact, they have not lost a game for the last fourteen games. Several of those twelve year old players will be moving up to the Babe Ruth Team next year.

**BERNIECE "JOHNSON"** WAS among the spectators at the ballgame in Happy on Thursday evening. It was good to visit with Berniece.

**SHARLENE VINEYARD** OF Kress has been visiting her cousin, Cindy Dugan.

**KELLY AND KIM** Foster visited relatives in Alamosa, Colo., with their grandparents, Mr. and Mrs. Henry Bachman of Guymon, Okla. Doty and Dana and Lissa Foster drove to Guymon for the holiday weekend and brought Kim and Kelly home.

**OMA HAYES HAS** been visiting in Wichita, Kan., with Gwen and Jim Dyer. She returned last Saturday and spent Tuesday, July 8, with us.

We celebrated her birthday that day with chocolate cake and strawberry ice cream (homemade) and by picking the green beans and English peas out of the garden. Mama is quite a pea picker.

**MARK TACKITT, SCOTT** Railsback and James Moore are attending a basketball clinic in Amarillo this week. Dick took them Monday and got them enrolled, then Joyce took them to Canyon and they caught a ride on with someone from there.

**DUANE STUBBLEFIELD** AND Fred Carter were fishing over the holiday weekend in Lake Texahoma.

Angelique Henry and Teresa Luker spent Friday, July 4, with Kay Lynn Stubblefield. Angeli-

que thought if she didn't get to go to town that night she'd be ruined. She bet me that I had to go to town on that night. I didn't have the heart to tell her that I lived in town.

**RAY AND LINDA** Sharp and children of Cherokee, Okla. visited the Larry Tackitts on the Independence holiday. Ray was at one time an employee of Bilt-Rite Farms. Then Ray returned to college and is now teaching.

**HAPPY COMMUNITY 4-H** will hold their annual family day picnic next Monday evening, July 14th, at the Roy Bryans. The group will meet at the house at 6:30 and bring enough hot dogs and all the trimmings and potato chips to accommodate your family. The picnic will be at the new dam on their place, so come on down if you don't arrive before the group drives down.

**THE HAPPY SQUARE** Dancers are beginning new lessons next Tuesday evening at the Catholic Hall. They'll begin about 8:30 and everyone is welcome.

**SEVERAL HAPPY** YOUTH will be attending the Tri-County Horse Camp at the Cobb-Wheller-Mote Arena this

Thursday and Friday.

**DON AND MARY** Ann Magness were back in Houston this week for Don's check-up.

**HAPPY COWBELLES** PROMOTED BEEF as they cooked beef on a grill in the Canyon parade during their July 4th celebration. Seems as if several were recipients of packages of hamburger meat. Beef smile buttons were distributed along the parade route. The Highway patrol and the parade marshal enjoyed the steaks cooked on the grill.

**HAPPY COWBELLES** WILL have a work day on a parade float on Monday, July 14th, at two o'clock in the barn at Mary Wilhelm's. This will take the place of the regular meeting this month. All members are asked to bring pound packages of hamburger to give away or donate one dollar to buy beef gift certificates. Plans are being made for the coming Happy Day Celebration.

**VONDELL DYER, 64**, died last Friday in Amarillo. Vendell was preceded in death by her husband, Wayne Dyer, in 1969. She was buried beside him in Hereford after graveside rites on Monday morning.

Vondell is survived by her daughter, Judith Scalia; a sister, and two grandchildren. (Wayne Dyer was a brother of Jim Dyer).

**PAULINE AND WOODROW** Wesley drove to Wellington on Sunday to visit Lacey and Gertie Boyd. They returned with Pauline's great nephew, Randy, who has been working for the Wesleys this summer.

**KEN HENRY** WON first place in the bull riding in the RCA rodeo in Pecos last weekend.

**HAPPY TRI STATE** High School Rodeo Club met Monday evening with Rockie Williams presiding. The club will also meet next Monday. Happy's Tri State Rodeo is scheduled for July 25, 26, and 27th.

**HAPPY JAYCEES** MANNED their annual rest stop on the July 4th holiday. Eighty seven cars from five different states stopped for the free refreshments and give aways. DeKalb, Ill., was the farthest point travelers represented. Dean Bryan was Jaycee Rest Stop Chairman this year.

## ALL AROUND THE HOUSE

### Freeze Now For Winter Fare

**By BECKY HALL**  
County Extension Agent

Have good, fresh-tasting vegetables next winter — by freezing them this summer.

Almost any vegetable can be frozen, from asparagus to zucchini. And it doesn't take much time or a lot of equipment.

All you really need is a big kettle of hot water for blanching, a wire basket, cold water for cooling and packaging containers.

Despite the simplicity, some people have problems with frozen food being of poor quality. To resolve this, there are four simple steps essential to excellent quality.

First use young and tender vegetables. Then freeze them immediately. Leaving them in the garden even a day too long can mean the difference between tough and tender condition next winter.

After washing and preparing the vegetables comes blanching — the most important step. This brief plunge into boiling water is the big secret to successful home freezing.

Its whole purpose is to stop the action of enzymes. Needed for the living plant's growth, these enzymes continue to work — even in the freezer — unless

stopped by blanching. Their action results in off-flavor, toughness or mushiness and off-colors.

Fortunately, blanching is easy. All that's needed is a gallon of rapidly boiling water in a kettle, about a pint of vegetables and a wire basket. Put the vegetables in the wire basket and plunge them into the water. Cover the kettle and start timing immediately.

Exact timing is important. Too much or too little will hamper the quality. For recommended times on each vegetable, consult a cookbook or freezing manual. The third key to successful freezing is quick cooling. A pan of ice water or even cold running water will do the job. Check a cookbook or freezing manual for exact times. But generally it takes about as long or longer to cool as it does to blanch.

Next, drain the vegetables and pack in airtight containers. Milk, ice cream or cottage cheese cartons can be used only if the vegetables are first sealed in plastic freezer bags.

Then, quickly set the containers in the freezer, making sure it is set at zero degrees F. or lower to maintain quality. Follow these four main steps

and use recommended blanching and cooling times for better quality vegetables.

Freezing Bulletins for Fruits and Vegetables are available without charge in the Extension Office.

## Capers Conduct Square Dancing

Canyon Capers Square Dance Club met this week at the Activity Center on the campus of West Texas State University with three squares present and Knox Day serving as caller.

Randy Costley called one tip and guest caller was Vince Thomas of Reddy Squares in Amarillo.

An auction sale was held between tips. The club meetings are always open to guests.

**CATHY PARKER, DAUGHTER** of Mr. and Mrs. Foster Parker, was one of the seventy contestants in the Miss Teen Ager of Texas contest in San Antonio last weekend. Cathy was sponsored by J.J. Lane Mercantile, Ole Scratch (Henry Hamblen), W.H. Haley, and Parker Cattle Company. The girls ages thirteen through seventeen, were judged on scholastic achievement, civic contributions, poise, personality and appearance. On Friday the girls registered and entered an essay contest. Essays were written on "Why I'm Proud To Be An American." Essays and the contestant's presentation of her own essay were both judged. Three top finalists were chosen. Cathy was one of these and then was chosen First Runner-up.

Saturday, all contestants were interviewed in street dress. The interviews counted fifty per cent of the beauty contest. Saturday evening contestants paraded in formal while their resumes were read. Cathy was one of the fifteen top finalists of the contest. Winner was a resident of San Antonio. In the talent contest, Cathy participated in a song group, which put action into their number.

Faye Parker, and Omalee Lowrey, Cathy's mother and grandmother, accompanied Cathy to San Antonio. Cathy also received flowers from friends and family while she was there.

**EXPERIMENT USING LEAVES** and grasses, including certain weeds, as human food source will run for two years and involve six hundred children, ages two to five, in India.

The project, sponsored by British relief agency, used special machinery to extract leaf protein concentrate (LPC). Machinery has capacity to convert three tons of leaves per hour into enough LPC to meet daily protein needs of six thousand people. Researchers claim LPC is cheap protein source and if successful, relief agency will expand the program to ten thousand people.

Someone should tell them that animal protein is the only single food that is a complete protein.

See ya! Mary Neal

## Law School Admission Tests Set

The Law School Admission Test, required of applicants for admission to most American law schools, will be given December 6, 1975 at West Texas State University. Registration materials may be obtained from WTSU after August 1.

The test will be administered by the Educational Testing Service under the policies of the Law School Admission Council, a nonprofit corporation comprised of one representative from each of the law schools accredited by the American Bar Association or the Association of

American Law Schools. Applicants are advised to make separate application to each law school of their choice and to ascertain from each whether the Law School Admission Test is required. The objective test will be given in the morning. It is designed to measure mental abilities deemed

important in the study of law and thus to aid law schools in determining the academic promise of their applicants.

The "Law School Admission Bulletin," which includes sample questions, registration information, and a registration form should be obtained by applicants at least six weeks in advance of the testing date.

The registration form and fees must be postmarked thirty days before the testing date to avoid the late registration fee and to guarantee being tested. Late registration closes on the date the test is to be given.

## SPRY Club Will Meet

The SPRY Club is scheduled to meet today, July 10, at 2 p.m. in fellowship hall of the First United Methodist Church for singing, a devotional led by David Cameron, and fellowship.

The SPRY Club is nondenominational and open to all residents 60 and above who would like to participate.

## Ford Family Has Reunion

The family of Mrs. Guy Ford met in the Holiday Inn at Saverton for a three day family reunion recently with all of the children present for the occasion.

Those attending the reunion included Doye (Monk) Ford of Jal, N.M.; Deyane Ford and family of Crane, Tex.; Tommie Williams and family of Amarillo; Joline Hawkins and family of Demoin, Iowa; Jo Ann Hill and family of Austin; Bobbie Kitchens and family of Hereford; Pat Long of Amarillo; Guy Ford and family of Hereford; Rhea June Crouse and family of Houston; Don and Kathi Ford of Green Bay, Wis.; along with married grandchildren including Susan Farris and family of Hart, Tex.; Gaylene Mayhew and family of Eldorado, Tex.; Quincy Hawkins and family of Hart, Tex.; four great grandchildren and a grandson, W.A. Hawkins, home on leave from Germany.

## Savings Bonds Sales Reported

May sales of Series E and H United States Savings Bonds amounting to \$15,574 in Randall county were reported today by County Bond Chairman Don Max Vars.

Sales for the five-month period totaled \$75,413 for 30% of the 1975 sales goal of \$250,000.

Sales in Texas during the month were \$19,223,287 — while the year-to-date sales totaled \$101,591,941 with 43% of the \$234.3 million 1975 sales goal achieved.

## Gamez Girl Is Born Here

Mr. and Mrs. Joaquin Gamez of 120 Higgins, Hereford announce the July 3 birth of a daughter, Melinda Ann, who weighed 7 pounds, 12 1/2 ounces and measured 20 1/2 inches at birth in Palo Duro Hospital at Canyon.

The baby's father is employed with Bill Bookout Masonry and the family includes two older children, Robert, 2, and Annette, 6.

Grandparents are Mr. and Mrs. Carl Hoffman of Hereford and Mrs. Horace Gamez, also of Hereford.

## University Church Of Christ

3400 Conner Drive

WELCOMES YOU

SUNDAY  
BIBLE SCHOOL—9:30 a.m.  
MORNING WORSHIP—10:25 a.m.

EVENING WORSHIP—6:00 p.m.

WEDNESDAY  
MIDWEEK SERVICE—7:30 p.m.

## Real Estate Course Scheduled

The new changes in state and federal real estate laws will be covered in West Texas State University's Real Estate Fundamentals and Practices course to be taught July 16 through August 15.

Registration for this and other WTSU second summer term classes will be July 14 from 8 a.m. to 4 p.m. in the WTSU Student Activities Center.

In addition to the regular course work, the course instructor, Dr. Zeke Marchant, will explain the new state and federal laws concerning the buying and selling of real estate.

Under new federal laws, any real estate transactions not concerning commercial property must be accompanied with documents which supply the purchaser with information outlining all costs.

The new Texas law, which Dr. Marchant describes as "long and complicated," outlines new regulations for obtaining real estate salesman and brokers licenses, which includes a new requirement for 30 classroom hours of college work.

The class will be taught each Monday and Wednesday night from 6:30 to 10 p.m. in Room 118 of the WTSU University Complex South.

Total tuition and fees, not including books, for three hours is \$46.95. For more information, contact the WTSU registrar.

## Missionaries Here On Sunday

The Willard Teague family will be visiting the Assembly of God Church at 2318 13th Avenue in Canyon this weekend for the Sunday morning and evening worship services.

The Teagues have worked in the Ivory Coast (West Africa) with Assemblies of God Foreign Missions and spent one year in Switzerland studying the French language and three years in Africa. They were able to establish 10 churches, one elementary school and a theological seminary during their mission service and will be sharing experiences through a slide presentation on Sunday evening, July 13.

Local residents are invited to attend the 11 a.m. and 7 p.m. services here by Rev. A. J. Pettit, local pastor.

## County Auction Of Equipment Is Saturday

Randall County will auction off everything from typewriters to a used car beginning at 10 a.m. Saturday at the courthouse.

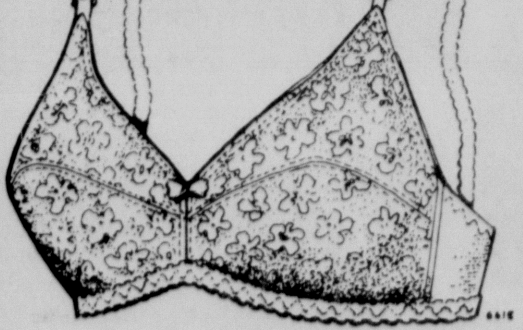

Machines will be on display for inspection by potential bidders on the ground floor of the old courthouse building all day Friday.

W. A. Bill Wilson will be auctioneer.

A 1971 Ford four-door sedan will be a key item for sale at the auction. The vehicle was formerly used by the sheriff's department.

Eighteen typewriters of various makes and models will be on sale as well as a half dozen calculators, some which work and some which don't.

Siesta Noticias

Fishing, Fun & Sun Fill Vacation Breaks

By DORIS MCKEE  
WELL, HERE we are one more time with some of the happenings out Siesta way. Hope everyone had a real great Fourth of July week end, whether it was spent at home or on a trip someplace.

ROYCE, TOD, DEANN and myself took last Thursday and went to Green Belt Lake. We tried our hand at fishing, but the fish really outsmarted us. We certainly don't intend to be discouraged by our showing, but we do intend to try again real soon.

close to home on the fourth. DAVIA AND KATHY Rinne, spent a few days last week with their grandparents Mr. and Mrs. A. A. Rinne in Wilson, Texas, and came home last Thursday on the bus. It was a real experience for them and I think they did enjoy it.

On the fourth, Davia and Kathy along with their parents, Albert and Katie, took in the movie "Jaws." Then they came home and barbecued.

Here they were able to see their son and daughter, Marty and Christy, who have been spending the summer there with their grandparents. They also went to Harper to see Diana's grandmother, Faye Diehl, who is now living in the Harper Old Folks Home. Diana said, Faye was doing real well and liked living there.

Diana and Jon also visited other relatives there and in Wichita, and then went to Kiowa where Jon's folks, Mr. and Mrs. Lester Hoffman lives. Christy came this far with her mother and Dad, but when they were ready to come home, Christy decided she wanted to stay a while with these grandparents and besides Mr. and Mrs. Lester Hoffman were planning a trip to Minnesota to visit some

relatives and Christy thought this sounded like fun. Jon and Diana came home on Thursday evening, July 3rd and had company arrive early Friday morning. Floyd, Brenda and Shellie Holt of Gothenburg, Nebraska came for a few days visit.

Also Rusty Holt came from Chickasha, Oklahoma to meet his folks here. The Holts were Siesta residents for about a year and a half.

OH YES, WHILE Jon was on vacation, Roscoe Shipley filled in as sanitation man, and will be helping out some now. You guys do us a good job and I'll remember to never call you garbage men again, ha.

I TALKED TO Dorothy

Robertson Monday. Her oldest son, Roger is on a two week vacation trip with his granddad, Jim McMath of Albuquerque. They are visiting relatives in California. Hopefully Roger will have some experiences to share with us when he returns.

EUNICE AND BARNEY Rinehart and their son and family, Bobby, Jo and Brent Rinehart of Amarillo left last Thursday and went to Lake Texoma for a long week end.

On Thursday night they stayed at the lodge, but on Friday they were able to get a cabin for the rest of their stay. Gladys (Eunice's sister) and Guinn Davenport of Vernon, Texas joined them Friday evening late.

Eunice said the fish weren't biting much, but they did catch six good sized ones. They had a fish fry Saturday night. They did some boating and had a very nice holiday week end.

On Sunday they all ate supper at Gladys and Guinn's in Vernon and then came home.

LARRY, CAROLYN, CECILIA and Mickey Bays took a long week end trip. They went to Dallas to Betty (Carolyn's sister) and Weldon Massey's. While they were there they went to Lion Country Safari and Six Flags. They enjoyed both very much.

When they returned home on Sunday, Carolyn's mother, Mrs. Carrie Rich came with them. Mrs. Rich had been visiting the Masseys for the past several

months, she does make her home here with the Bays.

SEEMS ROSCOE, SHARON and Brent Shipley had some good friends come for a visit Sunday. Claude and Jewel Burton, also Randy and Pat all of Happy Union were here for lunch and some talk of old times.

PAUL QUALLS, JR., son of Raylene and Paul, Sr., had Jeff Giesler of Canyon spend several days last week. They had a very good time.

TERRY MAYFIELD, DAUGHTER of Jean and Phil Mayfield, spent last week at the Flying Queens Basketball Camp in Plainview. She had a great time.

PHIL, JEAN AND Terry

Mayfield had some out of state visitors this past week end. Jean's nephew and family, Jimmy and Elaine Belyeu and nine month old Candy were here from California.

On Saturday night all had supper at the Mayfields and were joined by Jean's folks, Earlene and Dick Dickerson of Amarillo. They topped the night off with homemade ice cream.

Sunday Phil, Jean and Terry also Jimmy, Elaine and Candy loaded up, hooked on the boat and went to Lake McClellan for the day. Jean said they had a very good and enjoyable day.

Sunday night a friend of Jean's, Marcie Wright of Elk City, Oklahoma came by and spent the night.

ON MONDAY NIGHT, July 7th, 7:00 to 8:30 p.m., in the home of Mrs. Harold Hooks, a miscellaneous bridal shower was given for Cheri Risner and her fiancé Barry Henson. Some twenty-five to thirty guests called.

The table was laid in the bride-elect's colors of blue and white. The hostess' gifts were a toaster and a mixer.

Hostesses were Earlene Hooks, Becky Hall, Mary Troth, Margaret Boyce, Katie Stone, Nita Hershon, Juanita Orhite and Rhea Sanford.

Cheri is the daughter of Peck and Faye Risner of Siesta and Barry is the son of Mr. and Mrs. Ken Henson of Amarillo. The couple will exchange vows Saturday, July 19th.

On June 5th, Larry's grandmother Henson gave a family shower as a get acquainted get together for the couple. They received lots of nice and useful gifts.

TIM, SUSAN, LAURA and Chad Padgett were on vacation last week and went to Garland, Texas to visit some relatives and friends. They took in Six Flags, Lion Country Safari, Seven Seas and also did some water skiing.

Friday they went to Sweetwater and visited an Aunt and Uncle of Susan's and Saturday they went to Odessa to spend the day and night with Tim's sister and family.

They went out to eat Saturday night, July 5th to celebrate Tim and Susan's 7th anniversary. They came home late Sunday. Susan said it was a nice vacation and sure was hard to get up and go back to work Monday morning.

FAYE AND FELTON Conner had a couple of visitors last week. On Tuesday a cousin of Feltons, Joe Bill Conner, and his sister, Shelia, of Elk City, Oklahoma stopped and spent the night.

Thursday another cousin, Mr. and Mrs. Richard Conner of Sayer, Oklahoma came for the holiday week end.

DON'T FORGET THAT the Lamont Drive Baptist Bus will run each Sunday morning. It picks up at the recreation building at 9:00 a.m.

WELL, I GUESS I've told all I can for this week. Will sign off for now, but keep on reading.

Thought for this week, "Actions always speak louder than words, but listen carefully to both, you may learn something you didn't know or even suspect."

See ya. Doris McKee 355-4133

Girl's Defense Session July 12 Questions on womanly self defense will be answered for area girls of all ages in a special workshop for elementary, junior and senior high school girls on Saturday, July 12, beginning at 9 a.m. in the Y.W.C.A. building in Amarillo.

The informational workshop is being sponsored by the Amarillo Council of Camp Fire Girls and will be presented by a number of informed local panelists.

Part One of the program is designed for elementary age girls and their parents to last approximately one hour. The second part of the program is designed to give information to junior and senior high girls and will cover such things as obscene phone callers, hitchhikers, safety in the car, home and on the phone, answering the door, screaming, kicks, holds, indecent exposure and babysitting.

Various teaching techniques such as films, slide shows and discussion with question answer periods will be included. All girls across the Panhandle, and their parents, are invited to participate.

Women To Quilt For SD Mission Presbyterians Women's Association will hold an annual Medical Missions Luncheon on Tuesday, July 15, at the Harrell's Ranch with cars leaving the church at 11 a.m.

Those attending are asked to provide needles, thread, scissors, thimbles and a salad. A nursery will be provided at the church with those using the nursery asked to provide a sack lunch for their children.

Activity for the day will be the construction of a doubleknit square quilt to be stuffed with nylon hose for the Pine Ridge Mission in South Dakota.
